

Notice! This page describes the *nature of the error* using a hypothetical example and not the erroneous data of the input test file. You should however be able to apply this information to your error case.

General description of the error:

The format of the error message: cvc-complex-type.2.1: Element "{0}" must have no character or element information item [children], because the type's content type is empty.

Error description in schema standard: <http://www.w3.org/TR/2007/WD-xmlsche...c-complex-type>

Possible causes for this error:

- The file has content in an element, but the element must not have content according to schema definition.

An example

```
<NWKRadioManagement>content</NWKRadioManagement>
```

Error message: *Error cvc-complex-type.2.1: Element 'NWKRadioManagement' must have no character or element information item [children], because the type's content type is empty.*

How to fix: The error can be corrected by removing the content of the element.

```
<NWKRadioManagement></NWKRadioManagement>
```
