

Notice! This page describes the *nature of the error* using a hypothetical example and not the erroneous data of the input test file. You should however be able to apply this information to your error case.

General description of the error:

The format of the error message: cvc-complex-type.2.4.d: Invalid content was found starting with element "{0}". No child element is expected at this point.

Error description in schema standard: <http://www.w3.org/TR/2007/WD-xmlschema11-1-20070830/#cvc-complex-type>

Possible causes for this error:

- Schema restricts child elements to a choice between two elements but both elements are used.

An example

```
<InitgPty>
  <Id>
    <OrgId>
      <BICOrBEI>BKAUATWW</BICOrBEI>
    </OrgId>
    <PrvtId>
      <Othr>
        <Id>TEST</Id>
      </Othr>
    </PrvtId>
  </Id>
</InitgPty>
```

Error message: *Error cvc-complex-type.2.4.d: Invalid content was found starting with element 'PrvtId'. No child element is expected at this point.*

How to fix: This issue can be fixed by removing the other element under 'Id' and using only one child 'OrgId' or 'PrvtId'.

```
<InitgPty>  
  <Id>  
    <PrvtId>  
      <Othr>  
        <Id>TEST</Id>  
      </Othr>  
    </PrvtId>  
  </Id>  
</InitgPty>
```
