

Notice! This page describes the *nature of the error* using a hypothetical example and not the erroneous data of the input test file. You should however be able to apply this information to your error case.

## General description of the error:

**The format of the error message:** cvc-type.3.1.1: Element "{0}" is a simple type, so it cannot have attributes, excepting those whose namespace name is identical to "<http://www.w3.org/2001/XMLSchemainstance>" and whose [local name] is one of "type", "nil", "schemaLocation" or "noNamespaceSchemaLocation". However, the attribute, "{1}" was found.

**Error description in schema standard:** <http://www.w3.org/TR/2007/WD-xmlsche...#cvc-attribute>

### **Possible causes for this error:**

- Attribute was given for element where it is not allowed.

## An example

```
<ReqdExctnDt date="iso">1967-08-13</ReqdExctnDt>
```

**Error message:** Error cvc-type.3.1.1: Element 'ReqdExctnDt' is a simple type, so it cannot have attributes, excepting those whose namespace name is identical to "<http://www.w3.org/2001/XMLSchema-instance>" and whose [local name] is one of 'type', 'nil', 'schemaLocation' or 'noNamespaceSchemaLocation'. However, the attribute, 'date' was found.

**How to fix:** The reason for this error can be found out by examining the definition of *ReqdExctnDt* element from the schema definition and fixing the element to be valid against the definition. In this example, as the error message states, the *ReqdExctnDt* must not contain any attributes:

```
<ReqdExctnDt>1967-08-13</ReqdExctnDt>
```
