

1. It is recommended to use 'PmtTpInf' in Payment Information (PmtInf) level.
2. PmtTpInf should be found on either Payment or Transaction level, but not both.
3. If PmtTpInf is not found in Payment level, it must be defined in all Transaction elements.
4. Cd at Service Level (SvcLvl) is mandatory.
5. Cd value must be "SEPA"
