

Notice! This page describes the nature of the error using a hypothetical example and not the erroneous data of the input test file. You should however be able to apply this information to your error case.

Possible causes for this error:

- Starting tag does not match with ending tag

Valid usage of elements

Valid, normal usage of starting and ending tags.

```
<Issr>ADE</Issr>
```

Invalid usage. Issr is mis-spelled in closing tag.

```
<Issr>ADE</Lssr>
```

Error message:

Fatal Error The element type "[elem name] must be terminated by the matching end-tag ""
