

Please note! This page describes the *nature of the error* using a hypothetical example and not the erroneous data of the input test file. You should however be able to apply this information to your error case.

General description of the error:

The format of the error message: Attribute \"{1}\" bound to namespace \"{2}\" was already specified for element \"{0}\".

Error description in schema standard: <http://www.w3.org/TR/2004/REC-xml-20...4/#uniquattspec>

Possible causes for this error:

- Attribute namespace is declared twice within one element

Example

```
<Document xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"  
xmlns="urn:iso:std:iso:20022:tech:xsd:pain.001.001.03"  
xmlns="urn:iso:std:iso:20022:tech:xsd:pain.001.001.03">
```

Error message: Attribute "xmlns" bound to namespace "<http://www.w3.org/2000/xmlns/>" was already specified for element "Document".

How to fix: Remove duplicate namespace declaration

```
<Document xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance"  
xmlns="urn:iso:std:iso:20022:tech:xsd:pain.001.001.03"  
xmlns="urn:iso:std:iso:20022:tech:xsd:pain.001.001.03">
```
