

Description of the method

Description:	.toUpperCase() method converts string to upper case.
Available for:	string
Parameters:	-
Return type:	string

Example

Context:	HeaderType1
OCL:	self.Id.toUpperCase() = "IDCONTENT"
Description:	The example rule converts <Id> elements value to upper case and compares it to string "IDCONTENT"

The XML snippet below would pass this check.

```
<Id>IdContent</Id>
```

The other snippet below however would not pass this check as there is a space between id and content.

```
<Id>Id Content</Id>
```

Attached you can find example schema and files which you can use for testing.
