

Payments Maintenance is a part of Cash Management and includes the following messages:

- camt.052 - Account Reporting
- camt.053 - Account Statement
- camt.054 - Credit / Debit Notification

ISO Message descriptions with examples are available on-line on [ISO20022's message catalogue](#) and [Bank-to-Customer Cash Management](#) message set.

Creating different **camt** message scenarion with XMLdation E2E Simulator®

XMLdation Bank simulator generates camt.05x and pain.002 message scenarios based on ISO20022, CGI-MP, country or bank specific implementation rules.

You can see example [camt.053](#) generated by XMLdation Siumaltor according to CGI-MP. The visualization of report can be found [here](#).
