

Description of the method

Description:	.allowedDaysInFuture() method checks if the given date is within the days from the system date to a future date. The future date is x days later from the system date and the x is given as a parameter.
Available for:	ISODateTime or ISODate
Parameters:	integer
Return type:	boolean

Example

Context:	HeaderType1
OCL:	self.Dt.allowedDaysInFuture(3)
Description:	The example rule checks if the date of <Dt> is within 3 days from the system date.

The XML snippet below would pass this check, if assumed that the system date is 25.05.2018.

```
<Dt>2018-05-26T10:30:47</Dt>
```

The other snippet below however would not pass this check.

```
<Dt>2016-03-05T10:30:47</Dt>
```
