

**Description:**

In salary payments it is required to declare a code in order to indicate the purpose of the payment is salary.

**It can be done by specifying the code in either one of the following elements:**

- `pain.001.001.02/PmtInf/PmtTpInf/CtgyPurp = "SALA"`
- `pain.001.001.02/PmtInf/CdtTrfTxInf/PmtTpInf/CtgyPurp = "SALA"`

**Note:** In Samlink SEPA payments it is recommended that PmtTpInf is used at debtor level (`pain.001.001.02/PmtInf/PmtTpInf`). If used in `.../CdtTrfTxInf/PmtTpInf`, the element will be omitted.
