

This page describes the rules used in these pipes:

- **Cheque Crossborder**
- **Cheque Swift**

The following rulesets are active for these pipes:

- General
- Crossborder General

These rules are active for **both** cheque types:

1. PmtMtd has to be CHK or TRF in cheque payments.
2. CdtrAcct is not allowed

This rule is active for **Crossborder cheque**

1. Transaction block has to be identified as cheque. This is done by either
  - ? Setting value of PmtMtd to CHK
  - ? Setting value of CdtTrfTxInf/ChqInstr/ChqTp to BCHQ

The following rules are active for **Cheque Swift**

1. Value of CdtTrfTxInf/ChqInstr/DlvryMtd/Prtry has to be SWIFT
2. Amt has to be either EUR, USD or GBP.
